This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

PREFACE

This is the fourteenth catalogue issued by the Fraternity during the seventy-seven years of its existence. It contains the names of the 10,425 members of the twenty-four active and six inactive chapters from the foundation of the Fraternity in 1832 to the close of the academic year 1908-1909, including the names of 3,053 deceased members.

The book is much smaller than the general catalogue which appeared ten years ago. It is more in the nature of an Alpha Delta Phi directory and less a biographical index of the members of the Fraternity. The object which the makers of this book had in mind was a publication which would have a maximum of usefulness and at the same time be sufficiently inexpensive to meet with an extensive circulation. To this end the biographical detail, the military record and the kinship list of the 1899 edition have been sacrificed. These data doubtless will be included in another work to be undertaken by the Fraternity hereafter.

After the introductory matter, the full names and addresses of all members of Alpha Delta Phi are given by chapters, which are printed in the order of their establishment. Within the chapter list, the names are given according to the sequence of classes up to 1912. The members of that class and a number of others whose names were received at an hour too late to allow inclusion in the body of the book, were placed in the list of recent initiates put at the end of the roll of chapters. The star has its usual significance, and the year of death is indicated. In the geographical and alphabetical indexes, which follow in that order the roll by chapters, a dagger shows that the name so marked will be found in the list of recent initiates. Additions and corrections, somewhat numerous in the instances of the older chapters, are placed at the end of the book and show the latest changes in address of which the Secretary's office has information.

The officers of the Fraternity ask the active interest of all members of Alpha Delta Phi in maintaining the card index from

which this catalogue was compiled, the accuracy of which was attained through efficient assistance in the office of the Secretary. Notices of deaths or of changes or of misstatements of address should be sent to the Alpha Delta Phi, 136 West Forty-fourth Street, New York City. By means of a revision of the card index, carried on systematically week by week, future editions of this catalogue can be published frequently and at a relatively low cost.

Since July, 1907, the Fraternity has had its offices and headquarters at the Alpha Delta Phi Club of the City of New York, a picture of which appears at the beginning of this volume. The Executive Council holds its meetings at the Club and transacts its business from it. Any member of the Fraternity whose class has been graduated can be proposed for membership in the organization. At the present time the roll of the club includes about a thousand names, representing all the chapters. It is an attractive modern clubhouse and provides a suitable place where the graduates and undergraduates may be brought into closer touch with one another and with the Fraternity.

The officers who have had to do with the getting out of this catalogue are grateful to the several chapters and to individual members for such assistance as they have given in supplying or correcting the great number of missing or defective addresses.

ROBERT A. GUNN,
Secretary of the Fraternity, 1904-1909.

SHEPARD A. MORGAN,
Secretary of the Fraternity, 1909—

CARL R. GANTER,
Secretary of the Executive Council, 1901—

New York, July 1, 1909.
